

"Understanding the countless unseen details are often the difference between mediocre and Magnificent!"

XpressVue™
will open your eyes!

Canis IT
Focused IT Solutions

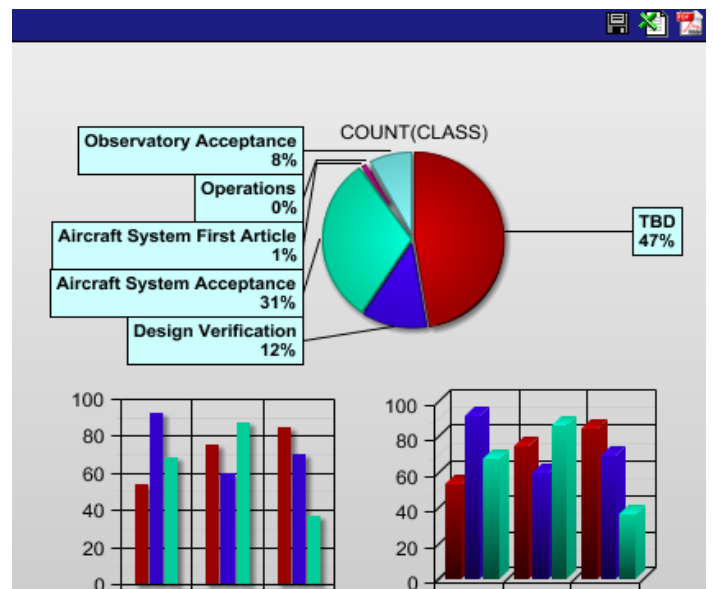

Canis IT's *XpressVue™* creates custom dashboards and forms that are completely web-enabled. Boost your ROI by providing instantaneous insight into project risk and status. XpressVue can be used stand-alone or as a complement to existing applications such as Serena® Dimensions RM™

- Uses custom tables, charts, maps, forms, and other innovative visual cues to deliver up-to-date business intelligence in real-time.
- Communicate with any standard data repository including Oracle, Sybase, MSSQL, MySQL, JDBC/ODBC connectors, Excel, CSV, HTML tables, tab delimited files, Postgress, XML.
- Intuitive drill-down capability
- One-click print or save into PDF, Excel, CSV, PPT, etc.
